Join us for an insightful webinar hosted by the SICOT Sports and Arthroscopy Committee, where we will explore the complexities of Middle-Aged Osteoarthritis of the Knee.

Moderators will present a series of real-life cases, diving into key topics such as unstable osteoarthritic knees, osteotomies, meniscus and cartilage restoration techniques, and the role of orthobiologics. Additionally, we will cover chronic ACL insufficiency, failed ACLR, combined reconstructions with osteotomy, and joint preservation strategies.

Don't miss the opportunity to engage with expert panellists and deepen your understanding of these challenging conditions.
